Summary

Cloud Engineer with 2+ years of experience in GCP, AWS-to-GCP migrations, infrastructure automation, and DevOps. Skilled in Terraform, CI/CD (GitHub Actions, GitLab CI, Bitbucket), Linux, Docker, Kubernetes, and Cloud Run. Experienced in automating infrastructure and deployments, managing production workloads, and building scalable cloud environments with strong troubleshooting and problem-solving skills.

Experience

Searce Inc

Cloud Engineer

Pune, India

April 2024 – Present

- Delivered 4+ client projects and 3 enterprise engagements while contributing to 2 internal platform accelerators that improved operational efficiency and engineering productivity.
- Architected and deployed GCP Landing Zones using Shared VPC, Compute Engine, Cloud SQL and Cloud Run for 150+ applications across Dev, UAT and Production environments.
- Executed zero-downtime DNS and load-balancer cutovers for 100+ applications per environment using Infrastructure as Code, automation, and comprehensive pre/post-migration validation.
- Delivered AWS-to-GCP migration and cloud modernization projects, leveraging GCP services such as Cloud Run while ensuring scalable, secure, and reliable application deployments.
- Automated cloud infrastructure and deployment workflows using Terraform and GitLab CI, developing reusable IaC modules and CI/CD pipelines that reduced manual provisioning efforts and improved deployment efficiency.

Coditas Technologies

Associate Software Engineer Intern

Pune, India

October 2023 – March 2024

- Developed dynamic, responsive web applications using Linux, HTML, CSS, Python, and MySQL.
- Integrated REST APIs with databases and deployed applications on GCP Cloud Run and Cloud SQL.
- Gained foundational DevOps experience in Git, version control, infrastructure management, deployment workflows, and industry coding best practices.

Technical Skills

Cloud & Platforms : GCP, AWS, GKE, Compute Engine, Cloud Run, Cloud SQL, Cloud Load Balancing, Cloud Storage

Networking & Security : VPC, Shared VPC, IAM, RBAC, Secret Manager, NAT, Private Google Access, VPN, Firewalls, DNS, Load Balancing, Least Privilege

CI/CD & Platform Engineering : Terraform, GitHub Actions, Google Cloud Build, Jenkins, GitLab CI, Deployment Automation, Platform Automation

Containers & Version Control : Docker, Kubernetes, Git, GitHub, GitLab, Bitbucket

Programming & Operating Systems : Python, HTML, CSS, SQL, Linux, Windows, RHEL

Skills & Tools : VS Code, Draw.io, Google Workspace, Documentation, Problem Solving, Troubleshooting, Logic Building, Communication, Project Management

Certifications

- [Google Cloud Certified Cloud Digital Leader](#) 📄 Issued in April 2025
- [Google Cloud Certified Associate Cloud Engineer](#) 📄 Issued in Jan 2026

Education

Deogiri Institute of Engineering and Management Studies | August 2019 – June 2023 |
B. Tech in Computer Science and Engineering | **CGPA: 8.6**
